•Task 1:
Create a view 'CSE_Course' which contains course id, title, and credits of courses offered by 'Comp. Sci.' department.

•Task 2:
From system account, create these users: U1, U2, U3 and provide basic privilege to these (CONNECT, CREATE SESSION, UNLIMITED TABLESPACE).

•Task 3:
Write and Execute SQL statements to create the attached (Auth_Graph.pdf) Authorization Graph. Mention the name of the account from where you are executing these statements.

•Task 4:
Display the content of USER_TAB_PRIVS. Save as an image and submit. (Image 1)

•Task 5:
Write SQL to REVOKE privilege from U1 and show the content of USER_TAB_PRIVS. (Image 2)

•Task 6:
Explain the authorization graph after revoking.
